Volumes: 26

Pages: 11,000

Copyright: 2008

Written and visually designed for students ages 10 to 17, the 2008 *Compton's by Britannica* has been thoroughly reviewed, updated, and revised by educators, expert contributors, and Britannica editors. Packed with dramatic pictures, detailed diagrams, and engaging text, *Compton's* gives young readers the basic facts and entices advanced students to dig deeper for the answers to their more complex questions.

ACCURATE AND UP TO DATE

New and revised articles include economics, electronic games, Jennifer Hudson, planets, popular music, rainforest, and Supreme Court, plus hundreds of new photos, images, maps, charts, and tables.

THE PERFECT SUPPLEMENT FOR THE CLASSROOM

Keyed to National Curriculum Standards, *Compton's* can easily be incorporated by teachers into their lesson plans and used by students to start projects and homework assignments.

PROVIDES QUICK AND EASY ACCESS TO INFORMATION

Users can find the information they need quickly with the help of Here and There, a convenient guide in the front of each volume that organizes content by subject, article, and page; the Fact Index, a mini-encyclopedia with more than 29,800 short articles; and the standard Index.

Learn and Explore Series: New Views of the Solar System from Compton's by Britannica

An Up-to-Date Look at the Solar System

Is your library up to date on the Solar System? When the International Astronomical Union recently redefined the term "planet," Pluto was stripped of its designation as the solar system's ninth planet. *New Views of the Solar System* looks at scientists' changing perspectives on the solar system, with articles on Pluto, the eight chief planets, and dwarf planets. Brilliant photos and drawings showcase the planets, asteroids, comets, and more, providing a stunning collection of vivid and detailed images of the solar system.

Learn and Explore Series: Earth's Changing Environment from Compton's by Britannica

An Up-to-Date Look at the Environment

Give your students, librarians, and teachers accurate and reliable information on climate change with *Earth's Changing Environment*. Written for ages 10 to 17, this comprehensive look at the environment focuses on climate, greenhouse effect, global warming, and the Kyoto Protocol while exploring the delicate web of life with articles on ecology, biogeography, biodiversity, endangered species, deforestation, and desertification. The effects of environmental pollution and efforts to protect the environment and to conserve its resources are also addressed.
